

# JobTrek SMTP Mail Server

INTEGRATES EMAIL AND ALARMS WITH DIGITAL TWO-WAY RADIOS

Receive email and alarm messages directly on Motorola MOTOTRBO™ Professional Digital Two-Way Radio Systems, without the need for work order management programs.

JobTrek SMTP Mail Server is an enterprise solution that enables users to connect the power of their digital two-way radios to their internal email systems for more reliable and timely communication. It is an ideal and flexible solution for a wide range of industries that do not use work ticket management programs, including hospitality, building management, healthcare, manufacturing and utilities. **No control stations are required.**

## Receive emergency alerts

JobTrek SMTP Mail Server can also be integrated with building management systems and critical equipment. When an alarm is detected or equipment fails, an automated alert is sent to designated radios.

## Connects to radios that are turned off

For maximum reliability, emails and alerts can be sent to designated radios whether they are turned on or off. The message or alert is delivered once the radio is activated.

## Supports variety of radio system configurations

JobTrek SMTP Mail Server supports standalone, single-site, multi-site, IP Site Connect, Capacity Plus and Linked Capacity Plus systems, and most internal email systems including Outlook.

## Runs as a Windows service

JobTrek SMTP Mail Server does not require monitoring by personnel. It can run as a Windows service or with a graphic user interface. Should the computer lose power or shut down, the program will automatically restart when the computer reboots.

## Sends written work requests to radios

Busy maintenance, engineering, security or other key personnel can easily misunderstand, overlook or forget verbal work requests made over their radios. JobTrek SMTP Mail Server enables written messages to be sent from your internal email system directly to the screen of a radio for more effective communication.

## JobTrek SMTP Mail Server System Requirements
